Good story

- (a) _____
- (b) _____
- (c) _____
- (d) _____
- (e) _____

54. Read the poem below and answer the questions that follow in full sentences.

MR. CLOCK

Please, Mr. Clock, tell me
When to wake up in the morning,
When to wash my face,
When to go to school,
When to have lunch,
When to do work,
Then, when to have a rest for some time.

Now I remember the time,
When I remained at home,
When I slept in my bed
When I left for school
When I kept good time.
When I swept the room,
Then, when I swept the floor, all I did in time.

Nakato Mercy (P. 4)
St. Elizabeth P/S

Questions

- 1. What is the poem about?

2. Who is the writer of this poem?

3. In which class is the poet?

4. Which work did the poet do in the second stanza?

5. In which class is the poet?

7.	In the space below, draw a cylinder.	8.	Using a protractor, measure the angle below.

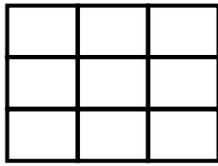

9.	Olum intends to make a cuboid using sticks. How many sticks does he need?	10.	Draw a line segment PQ of length 6.8cm.
11.	<p>Find the size of angle m.</p> 	12.	The flower garden at the church is 8m long and 6m wide. Find the total distance one covers when he moves around it once while admiring the flowers.
13.	Use a sharp pencil and a pair of compasses to draw a circle of radius 2cm.	14.	<p>Name the quadrilateral below.</p> 
15.	<p>Find the size of the missing angle below.</p> 	16.	How many circular faces has a cone?
17.	Find the length of the line segment	18.	Use a protractor to draw an angle

below.

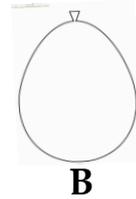

of 130° .

19. Find the area of the shape below.

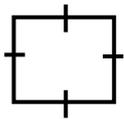

20. Which of the following has a conical shape?

SECTION B

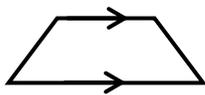

21. Match the following.

Trapezium

Oval

Cone

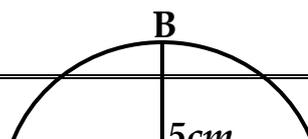

Triangle

Square

22. Study the figure below and answer the questions that follow.

(a) Name the line segments named below.

(i) ED = _____

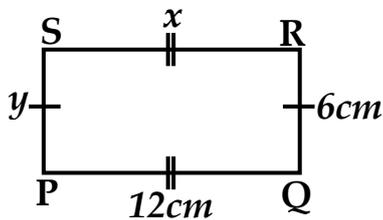

(ii) AC = _____

(iii) OB = _____

(b) Given that $OB = 5\text{cm}$, find the length of line AC.

23. Using a ruler, a sharp pencil and a pair of compasses only, construct an equilateral triangle ABC where $\overline{AB} = \overline{BC} = \overline{AC} = 6\text{cm}$.

24. Study the diagram below and answer the questions that follow.

(a) Find the value of;

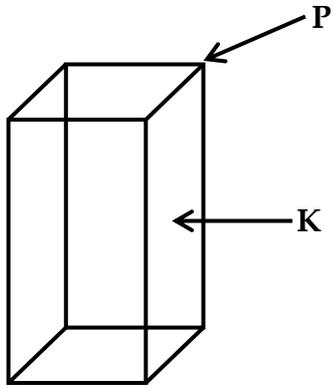

(i) $x =$ _____

(ii) $y =$ _____

(b) Find the area of the figure PQRS.

(c) What is the perimeter of the same figure above?

25. Study the figure below and answer the questions that follow.

(a) Name the part labeled;

(i) **P** = _____

(ii) **K** = _____

(b) How many of these does the figure have?

(i) Vertices = _____

(ii) Faces = _____

(iii) Edges = _____

26. Using a ruler, a sharp pencil and a pair of compasses only, construct a square PQRS whose sides are 4cm.

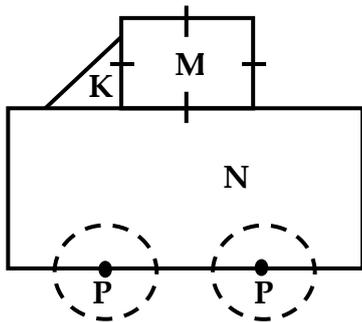

27. Define and give at least one example of;

(a) Obtuse angles

(b) Acute angles

(c) Reflex angles

28. Study the diagram below and answer the questions that follow.

(a) Name the shapes shown above.

K _____

M _____

N _____

P _____

(b) What shape has been doubled?

29. Use a sharp pencil and a ruler to draw the shapes below.

--	--	--

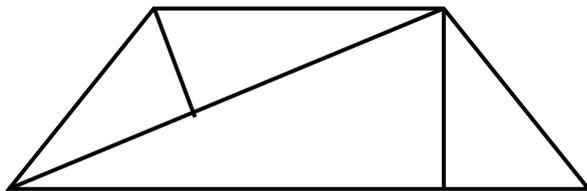

Cylinder

Cuboid

Pentagon

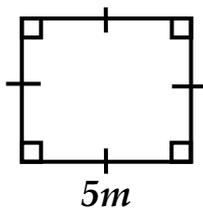

30. Using a ruler, a pencil and a pair of compasses only, construct a rectangle WXYZ in which $WX = 6\text{cm}$ and $XY = 3\text{cm}$.

31. Study the figure below and answer the questions that follow.

Show and count the number of triangles shown above.

32. Okia's living room is in a square form as shown below.

(a) Calculate the area of the living room

(b) Calculate the total distance around the living room.

(c) A spider moved around the room thrice. Find the total distance it covered.

GREENHILL PRIMARY SCHOOL

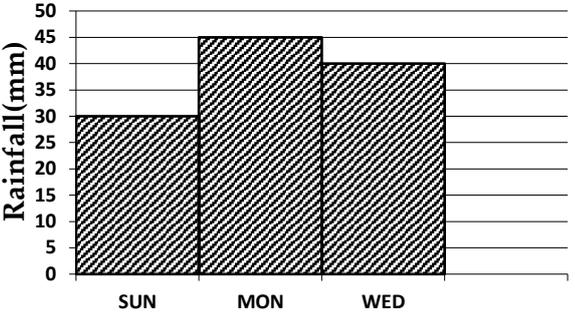

BUWAATE

P.4 MATHEMATICS HOLIDAY WORK ISSUE TWO TERM 3, 2019

Name: _____ Stream: _____

SECTION A

1. Draw tallies for 28.	2. Given that  represents 20 girls and  represents 15 boys. Find the number of pupils represented below. 
3. Juma scored the following marks in his midterm exams. 95 in Eng, 99 in Math , 98 in Scie and 96 in SST. Find the difference between his highest and lowest mark.	4. Write down the number shown by the tally marks. 
5. Find the average of 14 and 16.	6. Given that  represents 6 cars, draw pictures to represent 42 cars.

7.	Mark had 16 sweets, James had 19 sweets and Moses had 10 sweets. Find the average number of sweets the three boys had.	8.	<p>Below is a bar graph showing rainfall received in the first three days of the week. Use it to answer questions 8 to 10.</p>  <p>Name the day of the week where the least rainfall was received.</p>
9.	How much rainfall was recorded on Monday?	10.	Find the total amount of rainfall received on the three days.
11.	Mary planted 46 seedlings. Write tally marks to show the number of seedlings.	12.	Find the mode of the ages of pupils if it was, 6 years, 8 years, 7 years, 6 years.

13.	What is the range of 96% and 74%?	14.	Name any one axis of the bar graph.
15.	The teacher recorded the following points measured from the classroom. 20cm , 28cm and 30cm. Find the mean of the points.	16.	Draw tally marks for 16.
17.	If  represents 12 balls. Find the number of balls represented by; 	18.	Draw pictures to represent 32 apples if one apple represents 8 apples.
19.	Find the total of 80, 90 , 65 and 92 marks scored by Agnes in an Exam.	20.	Draw tallies for 37.
<u>SECTION B</u>			

21. Below are the number of books five pupils had, Alice 18 , Peter 15 ,Joan 16 ,Musa 16 and Ruth 17. Show the above information on the tally table below.

Name	No.of books	Tally marks

22. Complete the tally table below.

Fruit	Number	Tally mark
Apple	20	_____
Jack fruit	_____	### ###
Paw paw	17	_____
Lemon	_____	### ### ###

23. The table below shows the number of cars that go to city oil Kamwokya in a week.

Number of cars	48	46	52	48	50	47	45
Day	Mon	Tue	Wed	Thur	Fri	Sat	Sun

(a) On which day is the highest number of cars registered?

(b) Name the days of the week the same number of cars was registered.

(c) Find the total number of cars registered on the first three days of the week.

(d) How many more cars were registered on Friday than Sunday?

24. Use the scale of one book to represent 4 books and draw pictures for the data below.

<i>Name</i>	<i>Amos</i>	<i>Joy</i>	<i>Jane</i>	<i>Dora</i>
<i>No.of books</i>	8	12	16	4

25. Draw the tally marks for the following numbers.

(i) 8

(ii) 23

(iii) 35

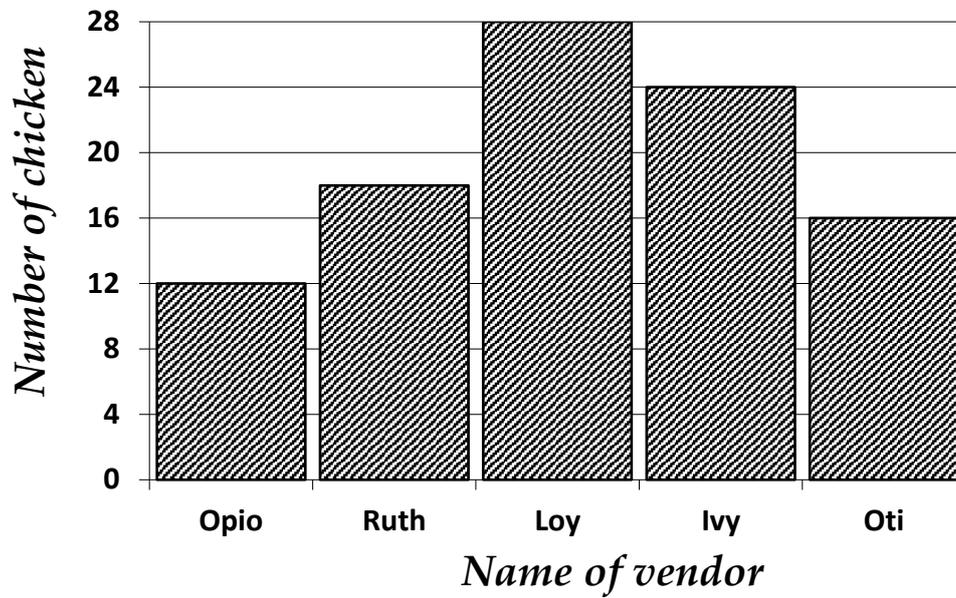

(iv) 49

26. The height of four pupils is as follows;
92cm , 105cm , 94cm , 92cm
(a) Write down the common height.

(b) Find the difference (range) between the highest and lowest height.

(c) Find the sum of all the height of pupils.

27. Study the bar graph below about the number of chicken sold in Nakawa market by different vendors.

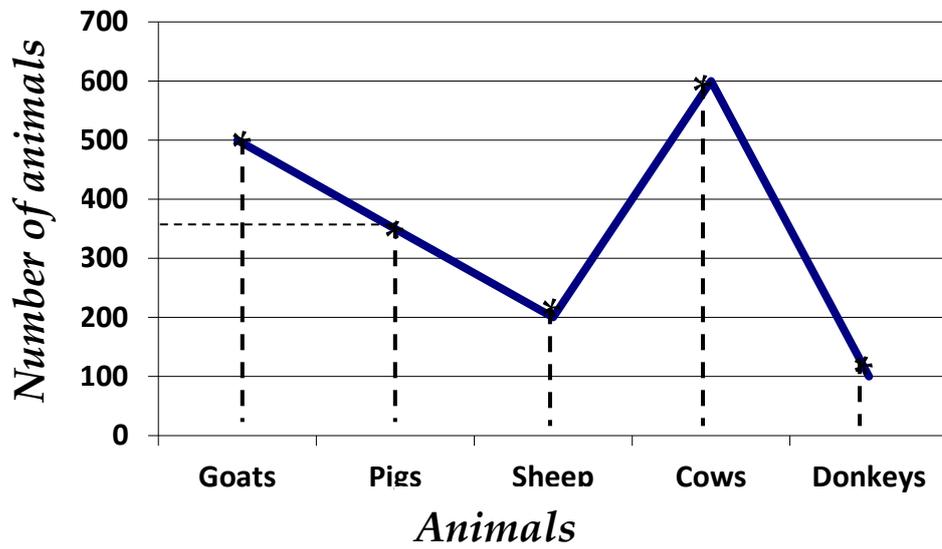

(a) Who sold the highest number of chicken?

(b) How many chicken did Ruth sell?

(c) Find the total number of chicken sold by all the vendors.

(d) How many more chicken did Ivy sell than Opio?

28. The line graph below shows the number of animals in Mr. Mucumu's farm. Use it to answer questions about it.

(a) How many goats are on the farm?

(b) Find the total number of sheep and cows on the farm.

(c) How many more pigs than donkeys are on the farm?

29. Study the pictograph below and answer questions that follow.

Name of potter	Number of pots
Mukyala	

Mwavi	
Joash	
Julius	

Scale:  = 30 pots

(a) Find the total number of pots Mukyala and Joash have.

(b) Name the potter with the highest number of pots.

(c) How many more pots does Joash have than Julius?

30. Draw tally marks for the following.

Number	Tally marks
38	_____
42	_____
22	_____
40	_____

31. Match correctly.

|||

7

||

11

|

8

32. The table below shows number of pupils and the colours they belong. Use it to answer questions that follow.

<i>Colour</i>	Red	Blue	Yellow	Green	Orange	Purple
<i>Number of pupils</i>	235	220	242	236	244	216

(a) Name the colour with the least number of pupils.

(b) How many pupils are in Green colour?

(c) How many more pupils are in orange than Red?

(d) Find the total number of pupils in all colours.

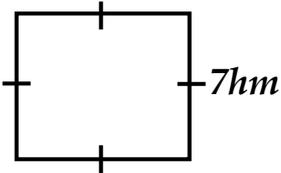

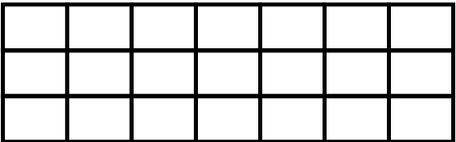

GREENHILL PRIMARY SCHOOL

BUWAATE

P.4 MATHEMATICS HOLIDAY WORK ISSUE THREE TERM 3, 2019

Name: _____ Stream: _____

SECTION A

1. Change 3m to cm.	2. A string was 2000cm long. Find its length in metres.
3. Add: Km m 7 800 + 3 700 ----- _____	4. Subtract: M Cm 9 46 - 3 66 ----- _____
5. Find the area of the shape below. 	6. Find the area of the figure below. 
7. Find the area of a triangle whose base is 8mm and height is 6mm.	8. Use > , < or = to make the statement true. 800grams _____ 2 kilograms.

9.	Alex is 4kg and Anna is 5kg. Find their total mass in grams.	10.	Each of the twins weighs 214grams. Find their total mass in grams.						
11.	Add; G mg 8 900 + 8 900 <u> </u> <u> </u>	12.	Bucket A weighs 4kg 560gm and bucket B weighs 3kg 660gm. Find their total mass.						
13.	<p><i><u>Study the table below and complete it.</u></i></p> <table border="1" data-bbox="247 1254 734 1355"> <tr> <td>Kilogram</td> <td>1</td> <td><u> </u></td> </tr> <tr> <td>Gram</td> <td>1000</td> <td>5000</td> </tr> </table>	Kilogram	1	<u> </u>	Gram	1000	5000	14.	Subtract: Kg g 8 400 - 3 800 <u> </u> <u> </u>
Kilogram	1	<u> </u>							
Gram	1000	5000							
15.	Use > , < or = to make the statement true. 4000litres _____ 4000millilitres.	16.	How many full half litre bottles can be used to fill a ten litre container?						
17.	Add: $\frac{1}{2}$ a litre + $3\frac{1}{2}$ a litre	18.	Add: Litre Millilitres 8 300						

$$\begin{array}{r} + 4 \quad 900 \\ \hline \hline \end{array}$$

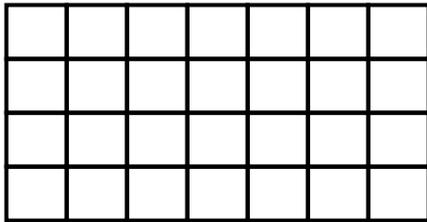

19. Study the table below and complete it.

<i>Litres</i>	2	3	_____
<i>Millilitres</i>	2000	3000	4000

20. How many full cups of 2litres can be used to empty a twenty litre jerrycan?

SECTION B

21. Study the diagram below and answer the questions about it.

(a) State the measurement of its;

(i) Length

(ii) Width

(b) Work out its;

(i) area

(ii) perimeter

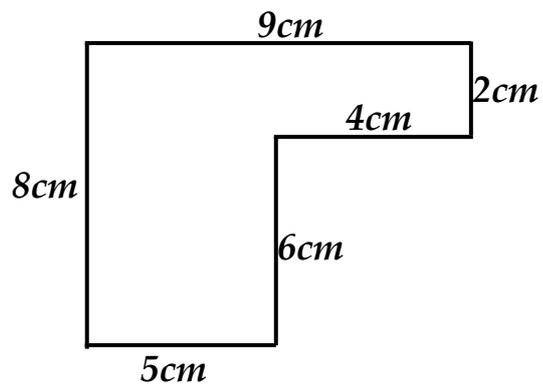

22. Use $>$, $<$ or $=$ correctly.

(i) 4m _____ 30cm

(ii) 500cm _____ 500cm

(iii) 800cm _____ 1km.

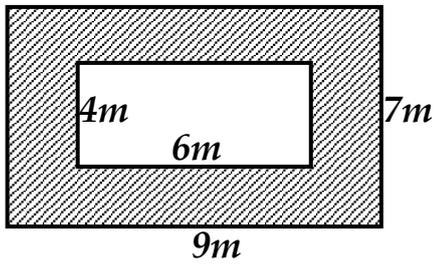

23. Study the joined shape below and answer questions that follow.

(a) Find its area.

(b) Work out the total distance round the above shape.

24. Answer questions about the figure below.

(a) Find the area of the unshaded part.

(b) Find the area of the shaded part.

25. Work out ;

(i)

Kg	g
7	740
+ 4	740

(ii)

G	mg
3	300
+ 3	400

26. Complete the table below.

Grams	1	4	_____	9
milligrams	1000	_____	7000	_____

27. (a) Convert $3\frac{1}{2}$ kg to grams.

(b) How many grams are in $7\frac{1}{2}$ kg?

28. Work out;

(a)

Kg	g
8	700
- 3	900
<hr/>	
<hr/>	

(b)

G	mg
7	400
- 1	600
<hr/>	
<hr/>	

29. Use the diagrams below to answer questions that follow.

(a) How many full tins of type A can be used to fill type B with water?

(b) How many full tins of type B can be used to fill type C with water?

(c) If each of the above tins was used once to pour water into a bucket, how many millilitres in total will be in the bucket?

30. (a) How many full $\frac{1}{4}$ litre bottles can fill a 2 litre container with water?

(b) How many full $\frac{1}{3}$ litre bottles can fill a 4 litre container with water?

31. Match correctly.

(1 x 2) litres

10 litres

500ml

(3 - 1) litres

4 litres + 6 litres

500ml

32. Add: (i) $\frac{1}{2}$ litres + $4\frac{1}{2}$ litres

(ii) $3\frac{1}{2}$ litres + $6\frac{1}{2}$ litres

(iii) 3litres + $\frac{1}{2}$ litre + $\frac{1}{2}$ litre

***** END *****

GREENHILL PRIMARY SCHOOL

BUWAATE

P.4 INTEGRATED SCIENCE HOLIDAY WORK ISSUE ONE TERM 3, 2019.

Name: _____ Stream: _____

SECTION A.

1. Name the rabbit disease that causes itching of ears.

.....
.....

2. Which type of fracture occurs in babies only?

.....
.....

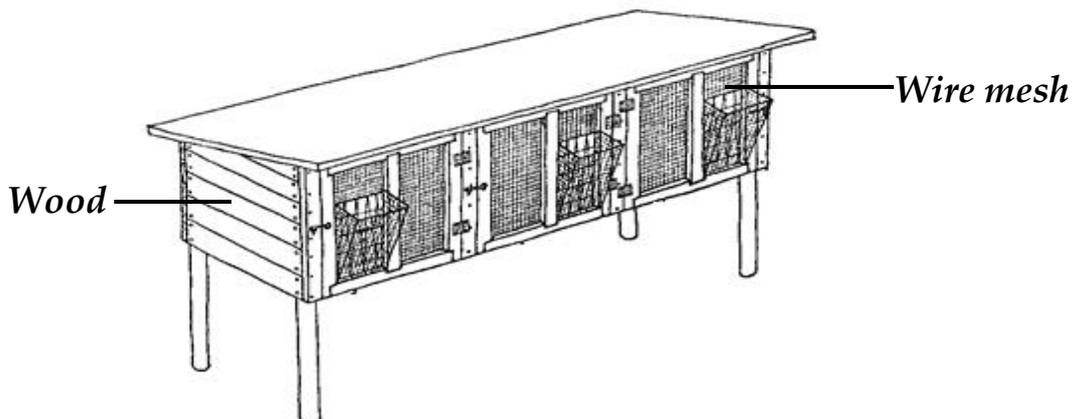

3. Write down **one** food stuff got from forests.

.....
.....

4. Name the body organ that filters blood.

.....
.....

The diagram below shows the type of hutch. Use it to answer questions 5 and 6.

5. Name the type of hutch shown above.

.....
.....

6. How is the wooden part useful on the above hutch?

.....
.....
7. Name the deficiency disease caused by lack of vitamin B₂ in the diet.

.....
.....

8. Why are we advised to exercise our bodies regularly?

.....
.....

9. Which food value mainly obtained from eating grasshoppers?

.....
.....

10. Name the breed of rabbits kept for production of fur.

.....
.....

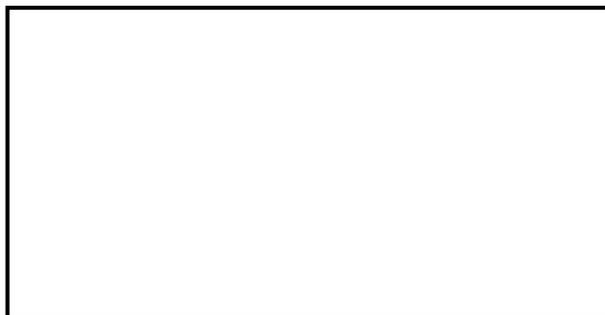

11. How can family members prevent poisoning at home?

.....
.....

12. How is a heart useful in the human body?

.....
.....

13. **In the space below draw one food stuff that provides vitamins**

14. What do we call the manufactured feeds for rabbits?

.....
.....

15. How is a tourniquet useful to a person who has got cut on the hand?

.....
.....

16. Why are deficiency diseases not spread from one person to another?

.....
.....

17. How can we control coccidiosis in rabbits?

.....
.....

18. Why are we advised not to breathe through the mouth?

.....
.....

19. Give **one** reason why animals eat food.

.....
.....

20. Why should rabbit farmers keep records?

.....
.....

21. Write down **one** cause of fractures.

.....
.....

22. How can we prevent lung cancer?

.....
.....

23. Which food value do brick makers need most?

.....
.....

24. Give **one** reason why people prefer keeping rabbits to goats.

.....
.....
25. How is spirit useful when giving first aid?

.....
.....

26. Why should food be served in clean containers?

.....
.....

27. Name the rabbit disease that affects poultry.

.....
.....

28. What first aid would you give to a friend who has got a burn?

.....
.....

29. How can we prevent getting skin diseases?

.....
.....

30. Give **one** method of preparing food for eating.

.....
.....

The diagram below show a fracture. Use it to answer questions 31.

31. Which type of fracture is shown above?

.....
.....

32. Name the human body organs with a similar function as stomata in plants.

.....
.....
33. Which deficiency disease is got due to lack of proteins in the diet?

.....
.....

34. Why should a hutch be cleaned regularly?

.....
.....

35. Name the common accident caused by hot water.

.....
.....

36. How is hair useful in the nose?

.....
.....

37. How is food useful in the body?

.....
.....

38. State **one** way of keeping the skin healthy.

.....
.....

39. Give **one** cause of food poisoning at home.

.....
.....

40. Write down **one** sign of sickness in rabbits.

.....
.....

SECTION B

41. (a) What are farm records?

.....
.....
.....
.....

(b) Write down **two** examples of records kept on a rabbit farm

(i)

.....

.....

(ii)

.....

.....

(c) Give **one** danger of not keeping records on the farm.

.....

.....

The diagram below shows, an item used by a first aider.

Use it to answer the questions.

42. (a) Name the item shown above.

.....

.....

(b) Write down **two** components of the above item.

(i)

.....

.....

(ii)

.....

.....

(c) Why should a first aider have the above tool?

.....

.....

43. (a) Name the common injuries that occur on

(i) muscles

.....

(ii) ligaments

.....

(b) Write down **one** cause of injuries named in (a) above.

.....

.....

(c) How is stretcher useful to first aiders?

.....

.....

44. Complete the table below correctly.

Vitamin	Deficiency	Signs and symptoms
Vitamin A	Poor night vision
.....	Rickets	Bow shaped legs
Vitamin C	scurvy
Vitamin B ₂	Sores in the mouth

45. (a) What is food preservation?

.....

.....

(b) Write down **one** modern method of preserving food.

.....

.....

(c) Give **two** reasons why food is preserved.

(i)

.....

.....

(ii)

.....

.....

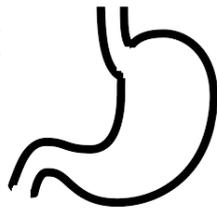

46. (a) What is an accident?

.....
.....
.....
.....
(b) Give **one** cause of burns at home.

.....
.....
(c) Write down **one** effect of accidents to people.

.....
.....
(d) How can we manage accidents at schools?

.....
The diagram below shows the body organ. Use it to answer the questions

47. (a) Name the body organ shown above.

.....
.....
(b) How is the organ above useful in the body?

.....
.....
(c) Give **one** diseases that affects the organ shown above.

.....
.....
(d) How can you care for the above organ in the body?

48. (a) Name any **two** breeds of rabbits.

(i)

(ii)
.....

(b) Write down **one** food stuff given to rabbits.

.....
.....

(c) How many days does a doe take to give birth?

.....
.....

49. (a) What is a balanced diet?

.....
.....

(b) Write down **two** components of balanced diet.

(i)

.....
.....

(ii)

.....
.....

(c) Give **one** danger of not feeding children on a balanced diet.

.....
.....

50. Match correctly

Organ

function

a. Lungs

stores urine

b. Brains

for smelling

c. Nose

stores information

d. Urinary bladder

for breathing

(i) Lungs -

.....

(ii) Brains -

.....

(iii) Nose

.....

(iv) Urinary bladder

.....

51. (a) What is first aid?

.....

.....

.....

(b) Give **two** qualities of a good first aider?

(i)

.....

.....

(ii)

.....

.....

(c) Why should casualty be given first aid?

.....

.....

52. (a) Give **one** source of the following

(i) Animal protein

.....

(ii) Plants protein

.....

(b) Write down **two** sources of carbohydrates.

(i)

.....

(ii)

.....

54. (a) Give the meaning of the following terms as used in rabbit keeping.

(i) Litter

.....

(ii) Buck

.....

(b) Write down **two** reasons why people rear rabbits

(i)

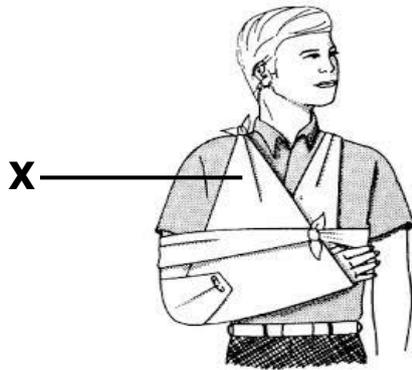

.....

(ii)

.....

The diagram below shows an item used to give first aid.

Use it to answer the question.

53. (a) Name the first aid item marked **X**.

.....

.....

(b) Name **one** injury the above person of likely to be having.

.....

.....

(c) How is part **X** useful to a casualty?

.....

.....

(d) Which other first aid item can be used to administer first aid for the above accident?

.....

.....

55. (a) Give the first aid for:

(i) Nose bleeding

.....

.....

(ii) electric shock

.....

.....

(b) Why is a person who has been bitten by a snake advised to keep calm and still as possible.

.....

(c) How can we prevent snake bites at home?

.....

GREENHILL PRIMARY SCHOOL

BUWAATE

P.4 INTEGRATED SCIENCE HOLIDAY WORK ISSUE TWO TERM 3, 2019.

Name: _____ Stream: _____

SECTION A.

1. Name the vector for malaria.

.....
.....

2. Give any **one** sign of a baby with dehydration.

.....
.....

3. State any **one** importance of bathing regularly.

.....
.....

4. Write down any **one** way we can manage drought in our environment.

.....
.....

5. What is a parasite?

.....
.....
.....
.....

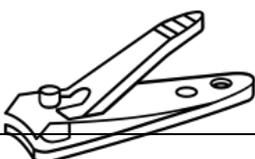

6. State the importance of condensation in the water cycle.

.....
.....

7. Suggest any **one** way we can control hookworm infestation in our homes.

.....
.....

8. Give the importance of the item shown below in promotion of personal hygiene.

.....
.....
9. What enables a housefly to spread diarrhoea?

.....

.....
10. How does pouring oil on stagnant water help to control malaria?

.....

.....
11. Name the weather condition that helps in food preservation.

.....

.....
12. State the difference between diarrhoea and dysentery.

.....

.....

.....

.....

13. In the space below, draw the weather instrument used to show the strength of wind at the weather station.

14. Identify **one** activity in personal hygiene which helps to prevent parasites.

.....

.....

15. What do we use to dry our body after bathing?

.....

.....

16. Besides taking ORS, give **one** other way we can manage the condition of dehydration.

.....
.....
17. Why are we not advised to take shelter under a tall tree during rainy weather.

.....
.....
18. Mention any **one** way we can control tsetsefly infestation in an area.

.....
.....
19. Why is the Stevenson screen made up of wood?

.....
.....
20. Name the mineral salt commonly found in toothpaste.

.....
.....
21. How does the killing of rats help to control bubonic plague?

.....
.....
22. Identify any **one** way maggots can be useful in our environment.

.....
.....
23. Name the intestinal worms which cause anaemia in people.

.....
.....
24. State **one** germ that causes dysentery to people.

.....
.....
25. How does brushing teeth every after a meal prevent tooth decay?

.....
.....
26. Identify any **one** importance of windy weather to plant.

.....
.....
27. Why is cholera called a communicable disease?

.....
.....
28. How does introduction of fish into ponds help to control malaria?
.....
.....

29. Besides digging trenches, identify **one** other way of controlling floods in our environment.
.....
.....

30. Identify any **one** danger of having a lot of hair on the head.
.....
.....

31. How do mothers help babies to promote personal hygiene?
.....
.....

32. Write the 4F's in the correct order.
.....
.....
.....
.....

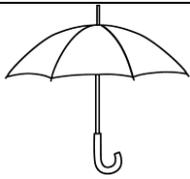

33. Why are male anopheles mosquitoes unable to spread malaria?
.....
.....

34. Give **one** way we can prevent the dangers of the fresh water snail.
.....
.....

35. Why are people encouraged to carry handkerchiefs?
.....
.....

36. Write any **one** way we can prevent non-communicable diseases.
.....
.....

37. Give the weather condition that causes people to carry the item shown below.

.....
.....
38. Identify the weather element that is a source of heat in our environment.
.....
.....

39. Mention **one** importance of applying jelly on our body after bathing.
.....
.....

40. Name any **one** disease caused by a trypanosomes.
.....
.....

SECTION B:

41. (a) Name **one** immunisable disease spread by a cockroach.
.....
.....

(b) Besides the disease above, identify **one** other disease spread by a cockroach.
.....
.....

(c) Mention any **two** ways we can reduce cockroaches in our environment.

(i)
.....
.....

(ii)
.....
.....

42. **Complete the table below correctly.**

Weather instrument	Type of weather	Element of weather
Wind vane	_____	wind

	—	
_____	rainy	_____
—		—
Six's thermometer	hot	_____
		—

43. (a) Name **two** physical changes involved in the water cycle.

(i)

.....

.....

(ii)

.....

.....

(b) Which process in the water cycle takes place in plants?"

.....

.....

(c) State **one** importance of the water cycle to animals.

.....

.....

44. In four sentences, describe how you would prepare ORS locally.

(i)

.....

.....

(ii)

.....

.....

(iii)

.....

.....

(iv)

.....

.....

45. State **one** danger of poor personal hygiene to each of the following;

(i)

skin

.....

.....

(ii) the teeth

.....

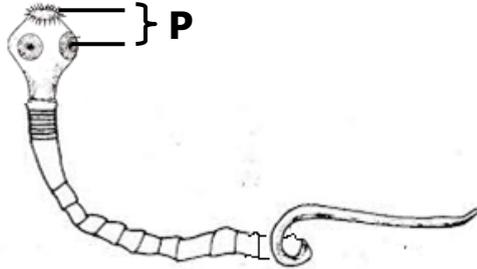

(iii) the mouth

.....

(iv) intestines

.....

46. **Below is a diagram of an intestinal worm.**

(a) Name the worm shown.

.....
.....

(b) How important are parts marked **P** to the worm?

.....
.....

(c) Give **one** way you can identify a person infected with the above worm.

.....
.....

(d) In which **one** way can a family prevent infection with the above worm?

.....
.....

47. (a) Give any **one** bad effect of the following weather conditions in our environment.

(i) Sunny

.....
.....

(ii) Windy

.....
.....

(iii) Rainy

.....
.....

(b) Give **one** way people benefit from rainy weather.

.....
.....

48. (a) State the importance of each of the following components of ORS.

(i) Water

.....
.....

(ii) Sugar

.....
.....

(iii) Salt

.....
.....

(b) Point out **one** danger of dehydration.

.....
.....

49. (a) What are germs?

.....
.....
.....
.....

(b) Give the type of germ that causes malaria.

.....
.....

(c) Identify **one** way germs spread from one person to another.

.....
.....

(d) State **one** way we can control the spread of germs.

.....
.....

50. (a) Give **one** danger of lightning in our environment.

.....
.....
(b) Which weather condition mainly causes lightning?
.....
.....

(c) Mention **one** way we can manage the dangers of lightning in our environment.
.....
.....

(d) Identify **one** way lightning is useful in our environment.
.....
.....

51. (a) **Draw diagrams to show each of the following weather conditions.**

Sunny weather	Rainy weather

(b) Give **two** uses of sunny weather to people.

(i)
.....

(ii)
.....

52. (a) Give the use of each of the following items in personal hygiene.

(i) Soap
.....
.....

(ii) Toothpaste
.....

(b) Identify any **one** danger of bathing with dirty water.

.....
...

(c) How does bathing control skin diseases.

.....
...

53. (a) What is the difference between dehydration and rehydration?

.....
...

.....
.....

(b) Write down any **two** causes of dehydration.

(i)

.....
...

(ii)

.....
.....

(c) Name **one** common substance used for rehydration.

.....
.....

54. (a) How is the feeding of a tapeworm different from a hookworm?

.....
...

.....
.....

(b) Mention **one** effect of each of the above worms to the body.

(i) tape worm

(ii) hook worms

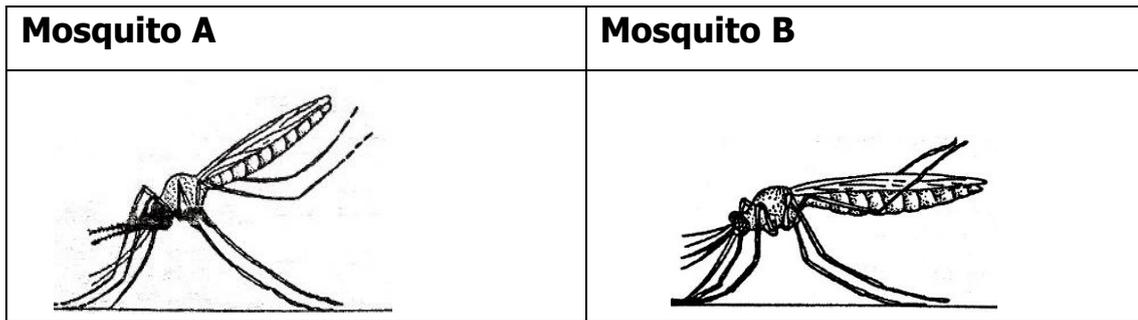

.....

(c) How do hookworms enter our body?

.....

.....

55. **The diagram show the adult stages of a mosquito. Use them to answer the following questions.**

(a) Identify the mosquito in **A** and **B**.

(i) Mosquito **A**

.....

(ii) Mosquito **B**

.....

(b) Name one disease spread by mosquito **B**.

.....

.....

(c) How can we control mosquito **A** at the larva stage?

.....

.....

GREENHILL PRIMARY SCHOOL

BUWAATE

P.4 INTEGRATED SCIENCE HOLIDAY WORK ISSUE THREE TERM 3, 2019.

Name: _____ Stream: _____

SECTION A.

1. Name **one** item used to carry out sanitation at home

.....
.....

2. Which set of teeth do your parents have?

.....
.....

3. Why is coffee grouped under perennial crop?

.....
.....

4. State **one** way non- flowering plants reproduce.

.....
.....

5. How can one keep a kitchen clean at home?

.....
.....

6. **In the space given below draw and name a type of tooth used to cut or bite food.**

7. Write **one** non-edible seeds found in your home environment.

.....
.....

8. Give **one** danger of plants to people.

.....
.....

9. Write **one** importance of leaving in a clean place.

.....
.....

10. How is the function of premolar teeth similar that of molar teeth.

.....
.....

11. Name **one** cereal crop that develops prop roots.

.....
.....

12. Identify **one** group of non-flowering plants.

.....
.....

13. How can a p.4 pupil identify a place with poor sanitation?

.....
.....

14. Briefly write what a term germ means.

.....
.....
.....
.....

15. Give **one** example of crop propagated by planting stems.

.....
.....

16. Write **one** crop that grows well in swamp.

.....
.....

17. Give **one** type of germs in the school compound.

.....

.....

18. How are incisor teeth adopted to their function?

.....

.....

19. Write **one** characteristics of legume plants.

.....

.....

20. How do most flowering plants reproduce?

.....

.....

21. Which disease is caused by a plasmodium germ?

.....

.....

22. Name the local item below used to brush teeth.

.....

.....

23. Which type of root system do cereal crops have?

.....

.....

24. How are leaves important to plants?

.....

.....

25. Name the instrument used to see germs.

.....

.....

26. How are dental braces important to P.4 pupils?

.....

.....

27. Name the part marked **m** in the diagram below.

.....
28. Write **one** system that makes up a flowering plant.
.....
.....

29. Identify **one** activity a p.4 child can do to keep a water source clean.
.....
.....

30. When should we brush our teeth?
.....
.....

31. Give **one** example of a leafy vegetable.
.....
.....

32. Name the garden tool shown below.

.....
.....

33. Write **one** disease we can get through drinking contaminated water.
.....
.....

34. Identify the cause of dental cavities in pupils.
.....
.....

35. State **one** crop that provides us with proteins.

.....
.....
36. How can we care for plants at school?

.....
.....

37. Write the importance of a plate rock at home.

.....
.....

38. Give **one** cause of teeth orders.

.....
.....

39. Why do famers plant crops in a wet season?

.....
.....

40. Give **one** condition for germination to take place.

.....
.....

SECTION B:

41. (a) Name **two** tools used to keep a toilet clean.

(i)
.....

(ii)
.....

...

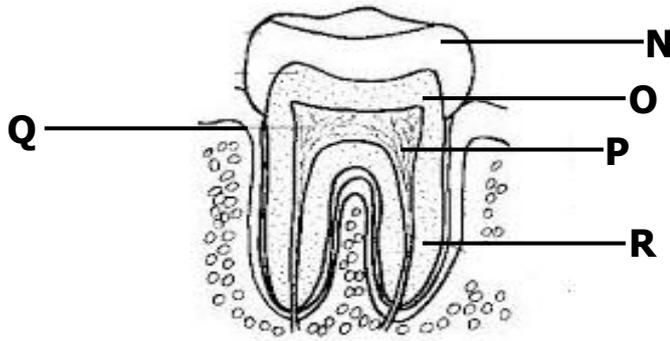

(b) Give any **two** ways of keeping a pit latrine clean.

(i)
.....

...

(ii)
.....

42. The diagram below is of a human tooth. Study it then answer questions that follow.

(a) Name parts marked **N** and **R**.

N

.....

.....

R

.....

.....

(b) Name the type of tooth above.

.....

.....

(c) How can we care for the above tooth?

.....

.....

43. (a) Write **one** activity done by a farmer during land preparation.

.....

...

(b) Why do farmers carry out weeding?

.....

...

(d) How does mulching control soil erosion.

.....
.....
44. (a) Write down **two** characteristics of monocotyledonous plants.

(i)

.....

(ii)

.....

(b) Give **two** examples of dicotyledonous plants.

(i)

.....

(ii)

.....

45. Match the vectors with the diseases they spread.

Vector	disease.
Housefly	bubonic plague
Tsetsefly	riverblindness
Blackfly	sleeping sickness
Ratflea	typhoid.

(i) Housefly

.....

(ii) Tsetsefly

.....

(iii) Blackfly

.....

(iv) Ratflea

.....

46. (a) What is oral health?

.....

.....

.....
.....
(b) Write **one** activity done to keep oral health.

.....
.....

(c) How is proper oral health important in our life?

.....
.....

(d) What term is given to a doctor who treats our teeth?

.....
.....

47. (a) Give **two** crops planted on a nursery bed before they are transplanted to the main garden.

(i)

(ii)

...

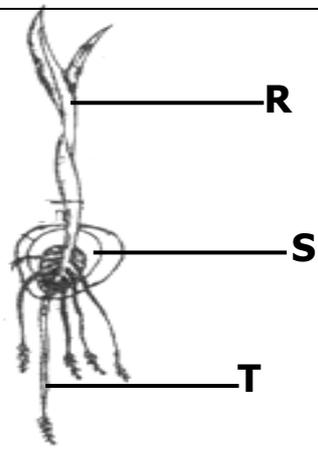

(b) Why do crop farmers carry out pruning?

.....
.....

(c) Write **one** method of crop growing.

.....
.....

48. The diagram below shows germination in plants.

(a) Name the parts marked **S** and **T**

S

.....

.....

T

.....

...

(b) Name the type of germination shown above.

.....

.....

(c) Give **one** crop that undergoes the above type of germination.

.....

.....

49. (a) Identify **two** components of a clean home.

(i)

.....

.....

(ii)

.....

.....

(b) Why are we advised to prepare food from a clean place?

.....

.....

(c) Write **one** viral disease spread through eating contaminated food.

.....

.....

50. (a) What is a fruit?

.....

.....

.....

.....

(b) Give **two** examples of fruits.

(i)

.....

...

(ii)

.....

...

(c) Write the importance of fruits in the diet.

.....

...

51. (a) Briefly explain the term harvesting.

.....

...

.....

.....

(b) In which season do crop farmers harvest their crops?

.....

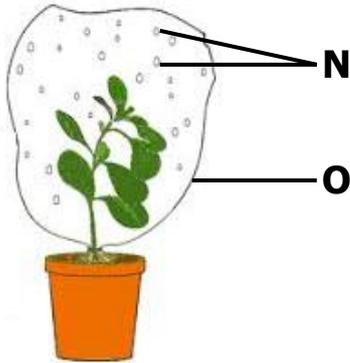

...

(c) Write **one** storage pest.

.....

.....

52. The diagram below shows the process that takes place in plants. Use it to answer questions that follow.

(a) Name the parts marked **N**

.....

(b) What is the process shown in the diagram?

.....

(c) How is the process above important to plants.

.....

.....

(d) State **one** factor that affects the process.

.....

.....

53. (a) What is transplanting?

.....

.....

.....

.....

(b) Name the garden tool crop farmers use to transplant seedlings.

.....

.....

(c) Why do crop farmers transplant seedlings in the evening?

.....

.....

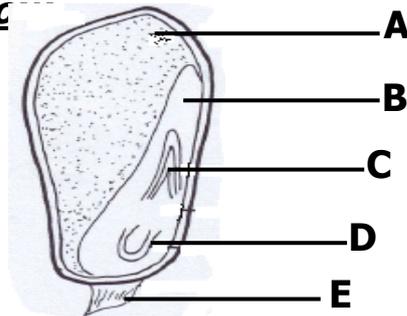

(d) How is hardening off important in crop growing?

.....

.....

54. The diagram below is a seed. Use it to answer questions

that follow

(a) Name parts marked **A** and **B**.

(i) **A**

(ii) **B**
.....

(b) Which part of the seed grows into shoot system?

(c) What is the importance of part marked **E**.

.....

.....

55. Complete the table correctly.

flower
.....	mature fertilized ovule.
.....	absorbs water from the soil.
.....	makes food for plants.

GREENHILL PRIMARY SCHOOL BUWAATE
PRIMARY FOUR SOCIAL STUDIES HOLIDAY WORK ISSUE ONE
TERM III 2019

NAME: _____ **STREAM:**

SECTION A

1. What are social services?

2. Name one example of social services.

3. Which type of education was introduced by the missionaries?

4. Write UPE in full.

5. Which ministry is in charge of all schools in our district?

6. How are teachers useful in our community?

7. Name any one place where children are taken for immunization in our district.

8. Name the first hospital in Uganda.

—

9. Which social service does a dog provide at home?

—

10. How can a school prevent conflicts with its neighbours?

—

11. How is a police post useful in a community?

—

(b) Name two examples of social service centres.

(i)

(ii)

(c) Mention any one way people care for social service centres.

—

48(a) Write BoU in full.

—

(b) Mention two examples of commercial banks in our district.

(i)

(ii)

(c) How are commercial banks important to farmers?

—

49. Copy and complete the table below correctly.

Kingdom / chiefdom	Title
Buganda	_____
_____	Omukama
Iteso	_____
_____	Kyabazinga

50. Write the following in full.

(a) RDC

(b) DDHS

(c) TASO

(d) DEO

51(a) What is child abuse?

—

(b) Mention two forms of child abuse.

(i)

(ii)

(c) State any one way of preventing child abuse.

—

52(a) Mention any two class rules.

(i)

(ii)

(b) How are class rules important to pupils in our school?

—

(c) Give one reason why parents escort their children to school.

—

53. How are the following types of leaders got in our district?

(a) political leaders

(b) religious leaders

(c) traditional leaders

(d) civic leaders

54(a) Name any two urban councils of Kampala.

(i)

(ii)

(b) Give any one reason why Kampala is divided into urban councils.

(c) Why are there many people in Kampala?

55(a) Who is a citizen?

(c) Mention any two responsibilities of citizens in our district.

(c) How do leaders help citizens to meet their needs in a district?

..... Merry Christmas
